Intro

Intro

- E.g. ARISTA-SW-AGILE2-TC1-B13_B14-2-20200927.cfg

  - The network admin/engineer/manager must verify the date of the last backup performed.

  - If not well done he/she will now have to investigate why the backup has not been done regularly.

Problem arise while performing manual checks

Problem arise while performing manual checks

- Reduce errors

- Less time consuming

- 1 script works faster than 1 person

- Reduce Risk of human errors and more reliable
